About Me

Experienced Forex Trader and skilled MQL Developer, adept at harmonizing trading strategies with automation. Offering a strong foundation in manual trading coupled with expertise in developing automated systems. Seeking to contribute these skills to a trading firm or individual looking to optimize their trading approach.

Experience

Fiftypips International Limited 2020 - 2022

Executive Director & Technical Head

I led strategic initiatives and oversaw technical operations. Leveraging expertise in Forex trading and MQL development, I developed automation solutions for enhanced profitability and operational efficiency.

Ultimatepips.com 2022 - Date

Chief Executive Officer and Lead Instructor

I educate and mentor traders in MQL programming for strategy automation. Empowering individuals to harness technology and elevate their trading strategies.

Education

2018

Udemy

Algorithmic Trading

Pursued multiple algorithmic trading courses on Udemy.com, enhancing proficiency in developing automated strategies. Gained hands-on insights into diverse trading methodologies and coding practices
